PROFESSIONAL SUMMARY

Final-year Master of Computer Applications (MCA) student with a strong interest in Data Analytics, Web Development, and emerging technologies. Skilled in programming, database management, data visualization, and web technologies. Experienced in developing academic projects and gaining practical exposure through an internship. A quick learner with strong communication and teamwork skills, seeking opportunities to apply technical knowledge and contribute to real-world projects.

EDUCATION

Master of Computer Applications (MCA)

Dr. G. R. Damodaran College of Science, Coimbatore | 2025 - 2027

Currently Pursuing – Final Year

GPA: 8.9 [Upto II Semester]

Bachelor of Computer Applications (BCA)

Kongunadu Arts and Science College, Coimbatore | 2022 - 2025

CGPA: 8.6

TECHNICAL SKILLS

Programming	: Python, Java, C, C++, R
Databases	: MySQL, MongoDB, Neo4j
Web Technologies	: HTML, CSS, JavaScript, Flask
AI Technologies	: Artificial Intelligence, Deep Learning, Generative AI
Data Analytics & Visualization	: Power BI, Pandas, Excel

PROJECTS

AI Market Trend & Competitor Analysis

- Developed an AI-based application to analyze market trends, customer preferences, and competitor information.

- Implemented web scraping to collect product data from multiple e-commerce platforms.
- Used Python, Flask, Pandas, NLP, and data visualization techniques for analysis.
- Presented market insights through charts and visualizations.

AI Powered Medical Fund Forgery Detection System

- Developed an AI-based system to detect potential fraudulent or forged medical fund/claim documents.
 - Used machine learning and data analysis techniques to identify suspicious patterns and inconsistencies in submitted records.
 - Designed the system to assist in automated verification and fraud detection, reducing the need for manual checking.
 - Implemented a user-friendly interface for uploading records and viewing detection results.
-

INTERNSHIP EXPERIENCE

Python with Artificial Intelligence

- Gained practical knowledge of **Python programming and Artificial Intelligence** concepts.
- Worked with Python libraries and techniques used in data processing and AI-based applications.
- Developed hands-on understanding of implementing Python for problem-solving and intelligent solutions through practical tasks and projects.

OxyAI — Intern

- Gained practical exposure to software development and technology-based projects.
 - Learned and gained hands-on experience with **Power BI**, including data visualization and dashboard creation.
 - Applied technical knowledge to real-world tasks and strengthened problem-solving skills.
 - Developed understanding of professional development practices and collaborative work environments.
-

CERTIFICATIONS

- Post Diploma in Robotics
 - Blockchain and its Applications [NPTEL]
 - Introduction to Modern AI [CISCO]
-

SOFT SKILLS

- Quick Learner
 - Effective Communication
 - Team Collaboration
 - Problem Solving
 - Adaptability
-

LANGUAGES KNOWN

Tamil | English
